Men's 3-Layer Weather Technology Soft Shell Jacket

KEY FEATURES

- Men's three-layer weather technology soft shell jacket features a solid body with hybrid polyester stretch contrast panels on the back and underarm
- Laser cut welded shoulder pocket for a personal compact audio device features inside pocket port and cord holder
- Stand collar offers extra wind protection in all weather conditions
- Two front pockets with full zippered security closures
- Ladies' crossover style #78621

BENEFITS AND VALUES

- Three-layer weather technology fabrication consisting of a polyester spandex shell bonded to a polyester jersey with a functional membrane in between
- The addition of spandex provides an improved fit and ease of movement
- Wind resistant, water resistant (8,000mm) and breathable (700gm) gives you maximum protection against all weather conditions
- Application of reverse coil pocket zippers for a technical inspired look
- Embroidery friendly
- Available in 3 colors, 2 of which are crossovers

PRODUCT POSITIONING

- Technical styling details inspired by top brands at retail level will appeal to the fashion conscious individual at a very competitive corporate apparel price
- Multiple color selection and crossover styling allows for comprehensive program positioning
- Imported product

FABRIC

- BODY: Bonded three-layer performance soft shell waterproof fabric, 96% polyester / 4% spandex.
- INSERT: Hybrid 100% polyester stretch

GARMENT CARE INSTRUCTION
